EDUCATION

Year	Course	Institute	Grade
2023-2027	B.Tech (Information Technology)	Netaji Subhas University of Technology	8.65
2021-22	Class XII, CBSE Board	Lawrence Public School, New Delhi	96.8%
2019-20	Class X, CBSE Board	Lawrence Public School, New Delhi	93.8%

EXPERIENCE

Data Science Intern - IndiGo

June 2026 - Present

- Developing a multi-class Machine Learning model to classify Mandatory Occurrence Reports (MORs) from incoming Flight Safety incident reports, improving incident triaging and regulatory compliance.
- Developing scalable data pipelines and workflow automation solutions to transform unstructured aviation safety reports into structured insights while ensuring DGCA regulatory compliance.

PROJECTS

ERiCA | (Python, LangGraph, win32com, Pandas, OpenPyXL, Pathlib, OS, Datetime/Time, TypedDict)

- Designed and developed ERiCA, a LangGraph-powered autonomous AI agent for automated aviation safety report classification using ERCS, ARMS, and 5x5 risk assessment frameworks.
- Built a modular LangGraph StateGraph workflow comprising queue management, intent classification, validation, and execution agents for reliable end-to-end processing.

Smart Traffic Light Control System | (Python, OpenCV, YOLOv8, NumPy, Pygame, Matplotlib, Pandas)

- Developed a Computer Vision-based smart traffic management system using YOLOv8 and OpenCV to dynamically optimize traffic signal timing based on real-time vehicle density.
- Implemented **emergency vehicle prioritization (Green Corridor)** logic to reduce emergency response delays and improve traffic efficiency by approximately 80%.

CERTIFICATIONS

Amazon ML Summer School 2025 | Amazon India

- Selected among **top 3000 applicants** out of 60k+ participants nationwide for an intensive, invite-only training program focused on advanced machine learning topics.

Google AI Essentials | Google

- Completed Google's AI Essentials program covering Prompt Engineering, Generative AI, Responsible AI, LLM applications, and AI-assisted productivity workflows.

SKILLS

Languages : C++, Python, Java, MySQL, HTML5, CSS, JavaScript

Developer Tools : Git/GitHub, VS Code, PyCharm, Figma, Canva, MATLAB

Relevant Coursework : OS, DBMS, Computer Networks, OOPs, DSA, Design & Analysis of Algorithms

POSITIONS OF RESPONSIBILITY

President - Enactus NSUT

- Leading Enactus NSUT, a 120-member organization, by overseeing strategic planning, project execution, stakeholder coordination, and representing the college at the [Enactus India National Exposition 2024](#) and [2025](#).
- Led Project Srijan by managing a cross-functional team of 20+ members, **delivering 500+ customized calendars** and executing multiple corporate orders while ensuring timely project delivery.

Director - Nalum (Alumni Society of NSUT)

- Managing alumni database operations for **5000+ alumni** while coordinating networking events through [Nalum's website](#).
- Organized [Alumni Meet-2025 & Silver Jubilee Function](#) leading a team of 100+ volunteers.

ACHIEVEMENTS

- Solved **350+ Data Structures & Algorithms** problems across different coding platforms.
- Secured **Department Rank 1** in the 5th and 6th semesters with SGPA's of 9.33 and 9.17 respectively.
